1. Claims 16-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

-In the claims, the usage of the terms "...unsupported component of..." is confusing. (i.e.-What constitutes being an unsupported component of a first substrate?); and

-In the claims, the usage of the term "...active..." is confusing. (i.e.-What constitutes being an active portion or an active component? In the electrical engineering arts, the term active is usually used to refer to devices, which are capable of supplying a voltage or a current greater than zero over time. A selected region of a semiconductor wafer would seem of incapable of doing such by itself. Thus, applicant's usage of this term is confusing.)

2. Applicant's arguments with respect to claims of record have been considered but are moot in view of the new ground(s) of rejection.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1763

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
